

Material ref AR313

Electrical Switchboard Matting

for 650 volts working

Black very heavy duty matting with ribbed top surface to reduce slip.

To be laid in front switchboards or electrical equipment where operators may be at risk from electric shock.

Available in 3 widths, 914mm wide, 1000mm & 1200mm wide. Cut lengths sold in metre multiples up to a maximum length of 10mtr long.

All grades of matting branded on underside with conformity details.

Up to the end of 2012, AR313 conformed to the BSI standard BS921, at the beginning of 2013 the British Standard Institute withdrew this status however AR313 continues to be manufactured to the same criteria.

Comparison Guide: Electrical Switchboard Matting

Materials are listed below most economical (to the left) to most expensive (to the right)

Material ref	312	313	314
